RADIATING ELEGANCE

*Beauty lives in the finer details*

Luxury can be defined in terms of an object's aesthetic elegance, exclusivity and experiential nature. For the connoisseur, the essence of luxury is found within the details.

# Zwei Lichter

## Dual Lights

Its name is derived from the German words *Zwei Lichter* from which *Zwei L®* exemplifies the technology and craftsmanship behind its creation. The playful harmony of its satin finish which emulates silk-spun fibers is elegantly contrasted by a mirror finish that glows with radiant beauty from the reflections of its surroundings.

Similar to that of a fine handcrafted timepiece, precision is at the heart of the process to blend its gentle edges with an immaculate finish. A process that requires the expertise of a jeweler. With its intricate design details bestowed upon marine grade stainless steel, Zwei L® delivers a simple, natural beauty that compliments a variety of luxurious environments.

Zwei L® is not only a name that captures the design of the product but it exemplifies the highest level of quality; from its marine grade stainless steel material to the delicate polishing process that gives Zwei L® it's life. This is why we have enlisted the expertise of jewelers to manage the entire finishing process, ensuring that each Zwei L® product delivers users with the best experience.

# Pride

FOR THOSE WHO KNOW  
DETAILS MATTER

QUALITY SHOULD LAST A LIFETIME

316 or Marine grade stainless steel was selected for its ability to resist damage that can be caused by the elements including chlorides and chlorinated solutions. What better way to ensure the longevity of products.

DESIGN SHOULD NOT BE COMPROMISED

Only true crafts-people can control the degree of accuracy required to draw, cut, press, shape and shear metal with the degree of accuracy required to maintain sharp design lines yet produce soft, alluring edges that give Zwei L® its sleek, dual-surface appearance.
