GERMS BE GONE HAND SANITIZER

GERMS BE GONE HAND SANITIZER GEL

CODE: HS-GBG236

236 ml Pump Bottles
24 bottles per case

Kills germs and is enriched with Aloe and Vitamin E so you can rest assured that your hands will remain clean and safe. Say no to sticky residue and hello to soft and smooth hands! Place enough product in your palm to thoroughly cover your hands. Rub hands together briskly until dry. Children under 6 years of age should be supervised when using this product.

- Active Ingredient: Ethyl alcohol 65%
- Reduces the presence of bacteria and viruses on the skin surface

CAN-SAN HAND SANITIZER

CAN-SAN 62% HAND SANITIZER GEL

CODE: HS-CANSAN500

500 ml Pump Bottles
24 bottles per case

Evaporates Quickly
Gentle On The Hands
62% Ethanol Provides Proven Infection Prevention Against A Wide Range Of Harmful Germs and Bacteria

Ready-to-Use
No Mixing

- Perfect for easy use with the pump bottle
- Active Ingredient: 62% Ethanol

ZAPAGERM HAND SANITIZER WITH ALOE

ZAPAGERM HAND SANITIZER LIQUID 75-80%

CODE: HS-ZAPA500

500 ml Cap Bottles
24 bottles per case

Zapagerm Hand Sanitizer is made from 75 to 80 percent alcohol. This health protection product certified by Health Canada is effective in eradicating any type of virus or bacteria that may be present on the skin. Its formula enriched with aloe helps prevent drying of the hands.

- Active ingredient: Ethyl alcohol 75-80%
- Reduces the presence of bacteria and viruses on the skin surface

AUTOMATIC HAND SANITIZER DISPENSER

AUTOMATIC HAND SANITIZER DISPENSER

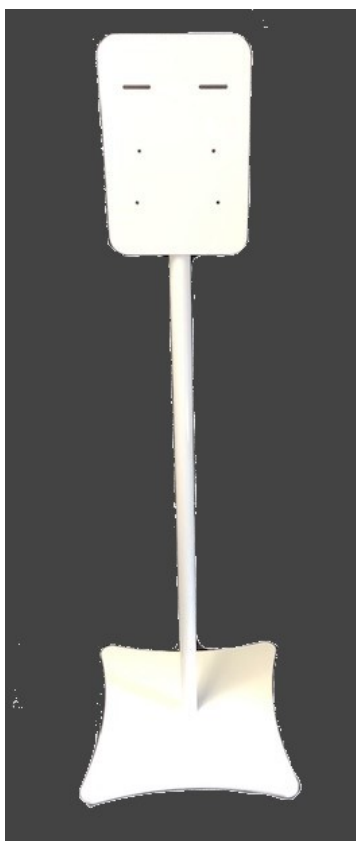

CODE: HS-DISPENSER

Can be used with different types of hand sanitizer.

- Liquid
- Gel
- Foam

Can be mounted directly to a wall or to our Mobile stand.

FREE STANDING STAND FOR DISPENSER

FREE STANDING MOBILE STAND FOR AUTOMATIC HAND SANITIZING DISPENSER

CODE: HS-STAND

White powder coated stand to be used with Automatic Hand Sanitizer Dispenser.

ON THE MARK LIQUID SANITIZER

ON THE MARK LIQUID SANITIZER GEL CODE: DS-OTM-1L

1L Spray Bottles
6 bottles per case

Confirmed by Health Canada to be effective against 2020 novel Coronavirus (SARS-CoV-2, COVID-19)

Disinfects and Cleans all hard surfaces in your facility
On The Mark replaces harsh cleaners and common disinfectants

- Bactericidal — Kills 99.9% of Bacteria in only 5 seconds
- Virucidal — Kills Swine Flu, Staph, and Salmonella in only 5 minutes
- Pleasant to use — Bleach-Free, Alcohol-Free, Non-Corrosive
- Quick. Safe. Easy.

Health Canada Approved

Note: Due to limited availability of sprays shipment may come only with a sealed cap and No spray head.

NO RINSE FOOD CONTACT SANITIZER

RTU-200 NO-RINSE FOOD CONTACT SURFACE SANITIZER CODE: DS-RTU200-1L

1L Spray Bottles
6 bottles per case

Recommendations

Restaurants, Bars, Taverns, Institutional Kitchens, Food Handling and Processing Areas, Federally Inspected Meat and Poultry Plants

Key Features

- No rinsing required
- Kills 99.99% of bacteria in 1 minute
- Cleaner, Sanitizer, Deodorizer
- Ready-to-Use
- No Mixing

Perfect for when sanitization of food contact surfaces is of prime importance.

When used as directed, will sanitize previously cleaned and rinsed, non-porous, food contact surfaces: eating utensils, drinking glasses, counter tops and chopping blocks.

KN 95

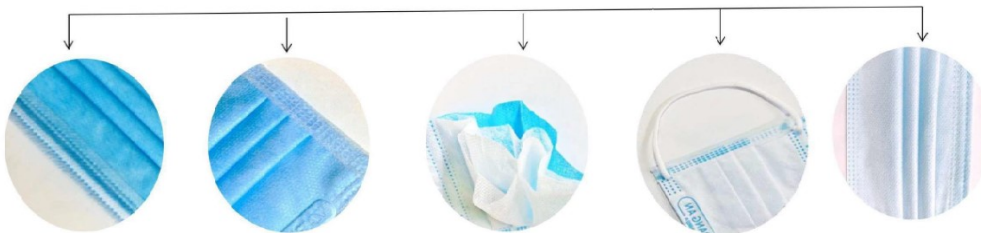

KN95 MASKS			
CODE	CERTIFICATES	BOX QUANTITY	CASE QUANTITY
KN95-MASK	FDA, CE	20	1200

The KN95 mask features anti-particulate matter filtering technology and antibacterial environmental protection fabric. It effectively filters and protects from 2.5 air particulate matter (PM) and bacteria. This mask is highly efficient at COVID-19 coronavirus prevention.

- 98% bacterial filtration efficiency
- 95% non-oily particle filtration efficiency
- Three-dimensional protective respirator
- Disposable
- 4 layers

LEVEL 3 - SURGICAL MASKS (4 PLY)

- 98% Bacterial Filtration Efficiency
- 98% Submicron Particulate Efficiency at 1pm
- 99% Virus Filtration Efficiency
- Differential Pressure less than 5mm
- 4 layers

98% SURGICAL MASKS			
CODE	CERTIFICATES	BOX QUANTITY	CASE QUANTITY
S-MASK-98	CE, ISO, ASTM	50	2500

The 98% BFE mask features anti-particulate matter filtering technology and antibacterial environmental protection fabric. It effectively filters and protects from air particulate matter and bacteria.

LEVEL 1 - SURGICAL MASKS (3 PLY)

LEVEL 1 - SURGICAL MASKS			
CODE	CERTIFICATES	BOX QUANTITY	CASE QUANTITY
S-MASK-L1	CE/FDA	50	2000

This mask features anti-particulate matter filtering technology and anti-bacterial environmental protection fabric. It effectively filters and protects from air particulate matter and bacteria. These are best for general purpose. Masks have 98% BFE.

GENERAL PURPOSE MASKS (3 PLY)

GENERAL PURPOSE MASKS

THE TWIST, JET AND AGION

THE TWIST

The touch free faucet with the technique Eco Twist which saves 80% water (1.27 Liter / min.) is especially for semi-public and office, where many people circulate and hygiene requirements are high. By interruption of the water flow when soaping hands the efficiency of the Swiss Eco Tap is increased again.

THE JET

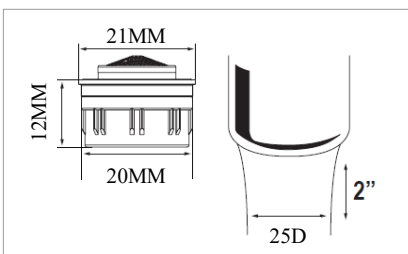

The touch free faucet which saves 90% water and 100% energy is especially for semi-public and public areas, where many people circulate and hygiene requirements are high. By interruption of the water flow when soaping hands the efficiency of the Swiss Eco Tap is increased again.

THE AGION

Using embedded silver filaments to destroy potentially harmful water-borne bacteria. Silver is scientifically recognized as having effective anti-microbial and anti-bacterial usages. The patented Agion Safeguard technology makes this the most environmentally and safe faucet in the world! Water-efficient with 70% water savings over traditional faucets.

FAUCET ATTACHMENT

FEATURES

- Distinguished stream with delicate lines and a unique spray pattern.
- Non-splashing, non-aerated spray.
- Constant pressure from 20 to 80 psi.
- Anti-clogging dome screen
- Compatible with regular and vandal proof M22 and M24
- Available housing: chrome, polished brass, brushed nickel and oil rubbed bronze
- Laser marked housings with statutory marks.

THE LEADER

Using hospital-grade far UV-c protection, to attack and destroy microbes like bacteria and viruses. Ensures no pathogens linger on the unit after use.

FEATURES

- Less than 68 dB, the quietest in the market
- Removable water drip tray avoids mildew build up
- Waterproof circuit board
- Reduce your carbon footprint

BENEFITS

Take a stand with this contactless technology, end the transmission of harmful microbes. No need to pick up germ-laden paper towels. Stop the spread of contagion, Kill viruses to provide a safe restroom.

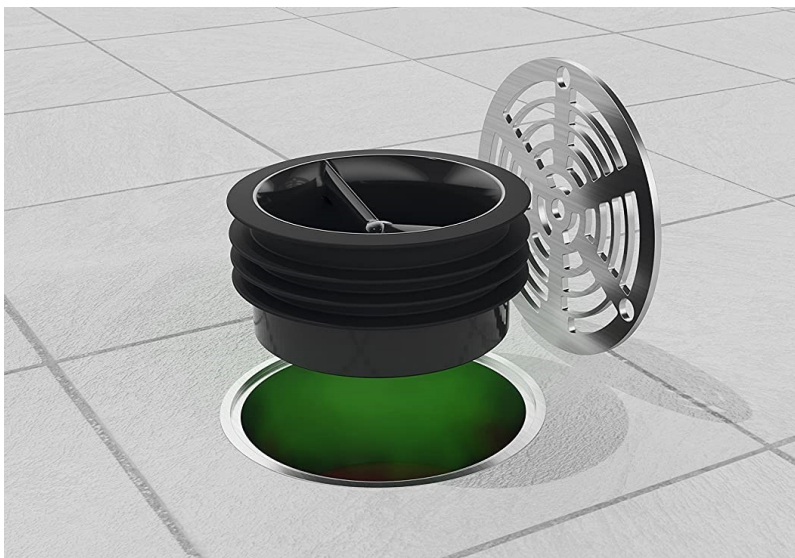

Save over \$3,317 yearly in paper towels

SPECS

Color	White or Silver
Weight	9.5kg

Special Features	UV-c light function
Dimensions	300W x 700H x 215D

GREEN DRAIN FLOOR TRAP

FEATURES

- One way valve creates seal to eliminate floor drain odor issues
- No more gases from floor drains
- Prevents and blocks bugs from crawling up through floor drains
- Solution to drain flies entering the facility
- Simple installation & improved drainage quality

In addition to all the benefits above, the Green Drain is crucial to preventing the spread of different dangerous bacteria's that can come up from sewers causing potential health hazards. The Green Drain is a solution for floor drains that eliminates the need to frequently pour primer and fresh water down the drain. It truly is an install and ignore solution for floor drain problems.

The Green Drain saves a significant amount of time, water, costs and energy.

ECOplus WATERLESS URINAL

ALSO WITH

FEATURES

- Zero-liter urinal
- Each urinal can save up to 100,000 liters annually
- Reduce your Co2 footprint by 17.5 kgs per year
- Touchless technology

BENEFITS

Safeguard your patrons with technology that prevents the spread of harmful viruses and bacteria.

Our Microbiological Odour trap kills odour causing bacteria and neutralizes uric acid. the result, if untreated is what rots pipes with traditional flush urinals.

SPECS

Color White

Weight 4.4kg

Special Features Passive advertising display

Dimensions 410W x 800H x 390D

CERAMIC WATERLESS URINAL

FEATURES

- Zero-liter urinal
- Each urinal can save up to 100,000 liters annually
- Reduce your Co2 footprint by 17.5 kgs per year
- Touchless technology

BENEFITS

Safeguard your patrons with technology that prevents the spread of harmful viruses and bacteria.

Our Microbiological Odour trap kills odour causing bacteria and neutralizes uric acid. the result, if untreated is what rots pipes with traditional flush urinals.

SPECS

Color White

Weight 21kg

Special Features Non-porous glaze = No residues are left

Dimensions 410W x 800H x 390D

ACTIVE CLEANER

PH-neutral, biological and sustainable.

Dermatologically tested for skin-friendliness and found to be «very good». MB-ActiveCleaner eliminates the bad odours caused when organic matter decomposes. It is particularly well suited for maintenance cleaning and odour elimination in heavily used washrooms & sanitary facilities.

MB-ActiveCleaner contains micro-organisms that penetrate the pores (joints) and destroy any odours caused by organic residues deposited there, leaving a pleasant and lasting freshness. Used daily, it prevents odours from developing.

By delaying re-soiling, MB-ActiveCleaner makes an active contribution to maintaining cleanliness in all environments.

AREAS OF APPLICATION

Toilets and sanitary facilities

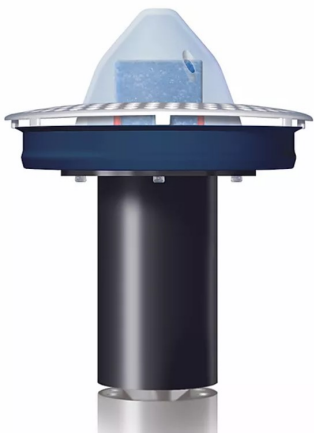

Washrooms and showers

Facades, passages and stairways

Waste containers and refuse collection stations

Floors, carpets etc.

ACTIVE TRAP

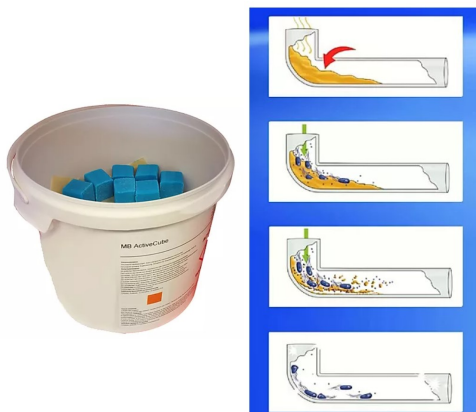

Sophisticated technology for the most basic of needs.

The URIMAT MB-ActiveTrap collects the urine and channels it into the waste pipe without flushing, while at the same time sealing in any odours. Fluids are channeled via a vertical membrane straight into the sewage system. Above the membrane there is a microbiological cleaning block which prevents build-up of deposits both inside the odour seal unit and in the waste pipe. As soon as fluids stop flowing through the membrane, it automatically forms an air-tight seal.

After the MB-ActiveCube has dissolved, the red surface beneath the transparent cover signals that the odour trap has to be replaced.

ACTIVE CUBES

With microbiological and odor eradicating action.

Removes lime and soap residues and delays renewed soiling. Deposits and encrustations caused by hair, organic material, oils, fats, etc.

The microorganisms in the MB-Active Cube penetrates the deposits and encrustations and simply breaks them down and softens them up. The deposits and encrustations will be washed away by urine.

When MB-Active Cubes are used regularly, Siphon and soil pipes remain clean and free of unpleasant smells.

A Brief Snippet

Canmade is a North American leader in the supply of specialty hardware. We hold our relationships with our suppliers and customers in high esteem which is why we have more than 40 years of experience under our belt.

We started out small, but over the years we have been importing and distributing functional and decorative hardware for the kitchen, bath, office and ready-to-assemble furniture industries. Our inventory currently boasts over 35,000 products including: adhesives, handles and knobs, lighting, slides and hinges, decorative surfaces, and organisation solutions. We are also conveniently located in Toronto, Montréal and will be growing across Canada and the United States.

Essentially, we strive to be the wholesaler you can rely on for all your furniture hardware needs with ease across North America.
