BORMA WACHS[®] Wood Professional Cosmetics & Eco-Finishes

For decades BORMA WACHS has been working in the wood care and synthetic surface treatment sector with a sense of responsibility and constant commitment to pursuing three fundamental principles: quality, reliability and flexibility. The dynamism, production capacity, safety and marketability of our products characterize our company profile. As specialists in the professional cosmetics of wood and synthetic surfaces, we offer our customers only the best of the best.

2. TOUCH UPS

The ideal product to touch up all imperfections on solid, synthetic Formica or laminated wooden surfaces. To be used on indoor or outdoor wood.

RESTORATION 3.

Our wood restoration services are backed by years of expertise and cutting-edge techniques, reviving the natural beauty of your wooden surfaces with a timeless finish. Our range of premium wood restoration products, crafted to breathe new life into your wood furniture and floors, leaving them protected for years to come.

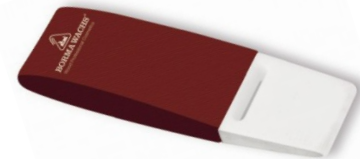

4. FILLERS

Our high-quality filler products are engineered to seamlessly repair cracks, holes, and imperfections in various surfaces, ensuring a smooth and flawless finish for your projects. We offer a comprehensive range designed to meet the diverse needs of DIY enthusiasts and professionals alike.

DECORATION 5.

Our line of specific products for wood decoration allows you to enhance your creativity and be professional in every step. Our line include the best wood decoration products such as colorant, coating treatment and much more.

6. INTERIORS

Our lines of interior wood treatment products are designed to provide you with the right product for each phase of wood treatments. From preparation to decoration, from maintenance to touch ups. Choose our natural wood treatment products: they are safer for you and perfect for the environment!

Our exterior wood treatment products have been realized thanks to a research and development department that has worked at 360° to achieve the best performance in every area of application. Outdoor wood treatment is an important and demanding sector, where performance concerns not only aesthetics but also maintenance, safety and environment.

8.

ENAMELS

Ready-to-use, easy-to-apply, low-yellowing enamel. Perfect for any type of surface, whether wood or metal, outside as well as inside. Decorates and protects.
