ACRYL+

ACRYL is an acrylic laminate that enhances the shapes of surfaces dedicated to interior design. Available in two versions, ACRYL+ extra glossy, and ACRYL MATT super matte, to blend perfectly with any environment. Its exceptional optical depth makes it the best alternative to high range lacquers: its composition offers unlimited design flexibility. Panels and components are available with different substrates, formats and thicknesses, matching edges and easily machined with woodworking machines and tools.

FORMEX

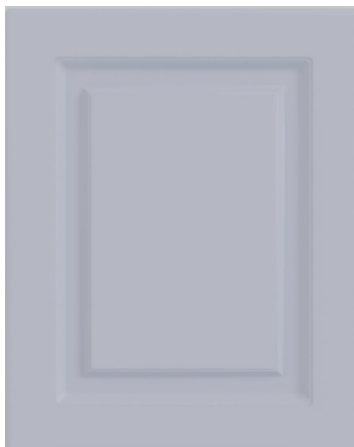

FORMEX® is an acrylic surface with a special treatment by excimers, conceived as latest generation surface for the interior design. Available in glossy or super matt finishes, it is resistant to scratches, anti-fingerprint and soft touch. Delivered in a very short lead time, it can be supplied as a panel with matching edges for machining on its own or in custom-made doors and components. Its surface is pleasant to the touch and has low VOCs emissions.

GLAKS

GLAKS® is the innovative surface with glass effect. Known also as the “organic glass,” as it combines silicon powder with pure transparent PMMA. GLAKS® brings the aesthetics of glass back to a new, even more authentic solution. The new generation of organic glass becomes an ideal support for the creation of design furnishings in which the echoes of Venetian glass art are reflected. This new generation surface is distinguished by the fact that it is easy to process with woodworking machines and tools and adapts to every environment and design.

SOLO LOCK

The SOLO can be used for doors, drawers and sliding doors and is attached to the respective door or panel on the inside. Invisible from the outside, the SOLO lock is then operated with key cards, fobs or with a smartphone. The RFID reading range and battery life depends on the technology used and the quality of the keys

PLUR LOCK

The PLUR lock enables the locking of several superimposed drawers with a central locking bar. Due to the integrated spring, the drawer does not necessarily have to be closed to lock the lock. The RFID reading range and battery life depend on the technology used and the quality of the RFID key units.

TEN LOCK

The TEN keypad lock allows furniture to be locked with a combination of keys. The keypad is attached to the outside of the door and bolted to the lock on the inside. The 7 cm cable connects the two components through a pre-drilled hole in the door.

BEETLE LOCK

The BEETLE is an electromechanical furniture lock that is connected either to a SOLO lock or directly to an external power supply. The small, robust design enables a wide range of applications in display cabinets, drawers, caravans and boats. All versions are equipped with a 1.5 m cable. The length and plugs can be adjusted on request.

FIT LOCK

The electronic furniture lock with free / occupied LED display, for use with free locker choice or fixed assignment of RFID cards (13.56 MHz) or operable via Bluetooth. The lock is mounted on the fixed furniture part and the locking device on the door.

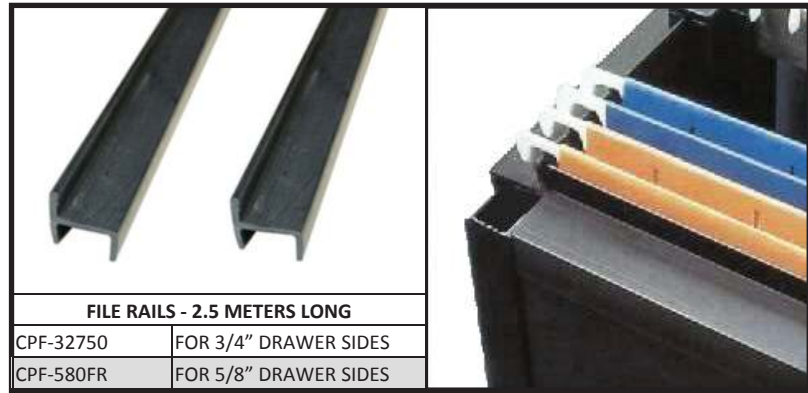

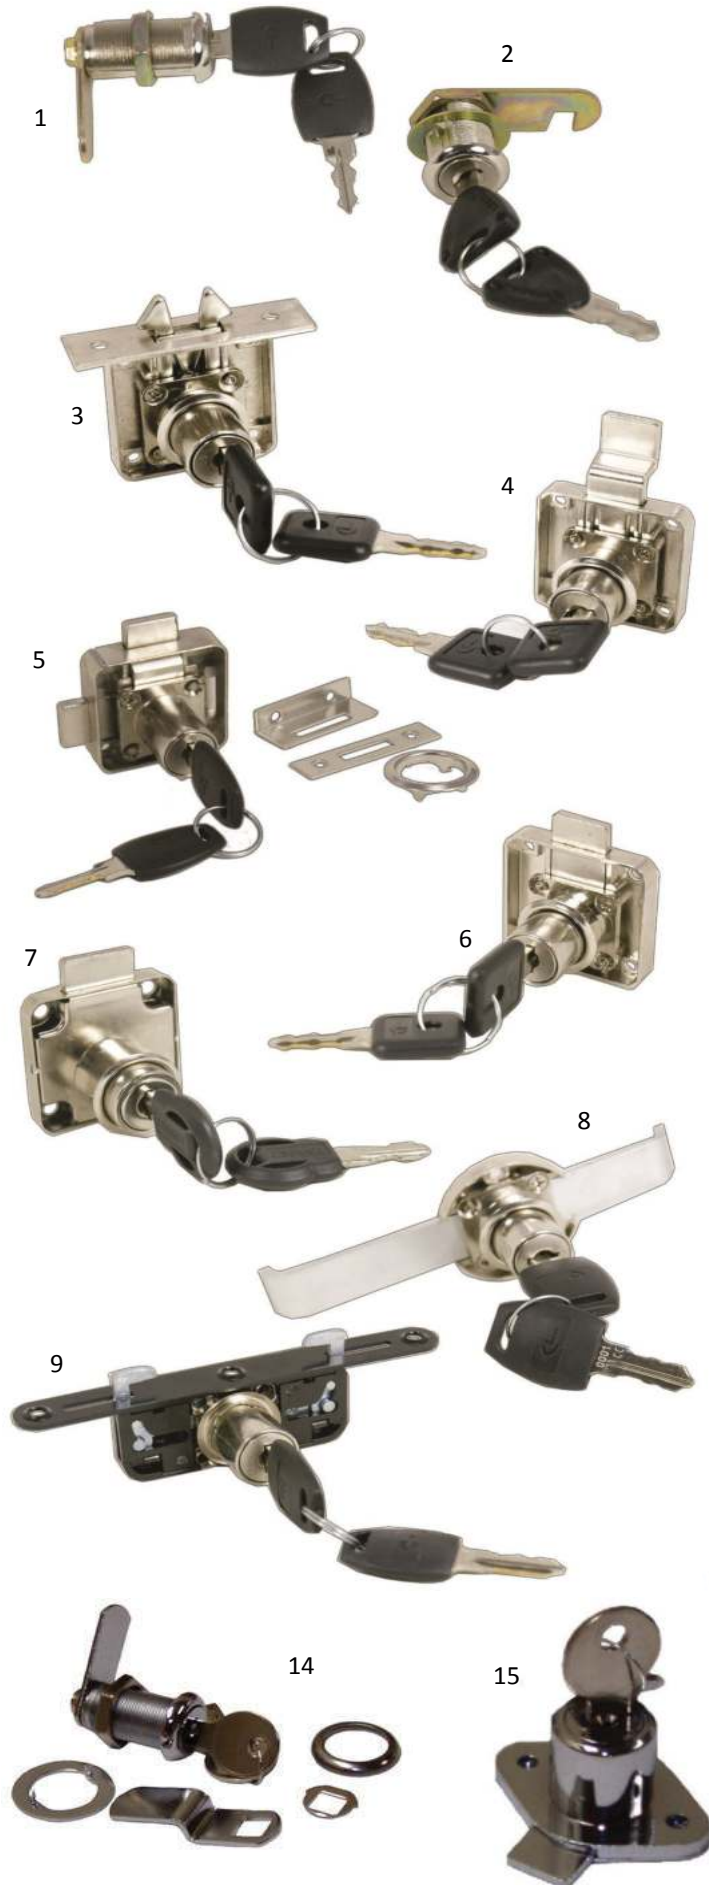

HOOD LOCK

Protect your valuables with the Hood built-in safe – invisible and secure. Our invisible built-in safe can be installed by a carpenter in wall shelves, closet shelves or on the underside of tables. Thanks to its invisible installation, the Hood built-in safe is more secure than conventional safes and offers you the ultimate security for your valuables.

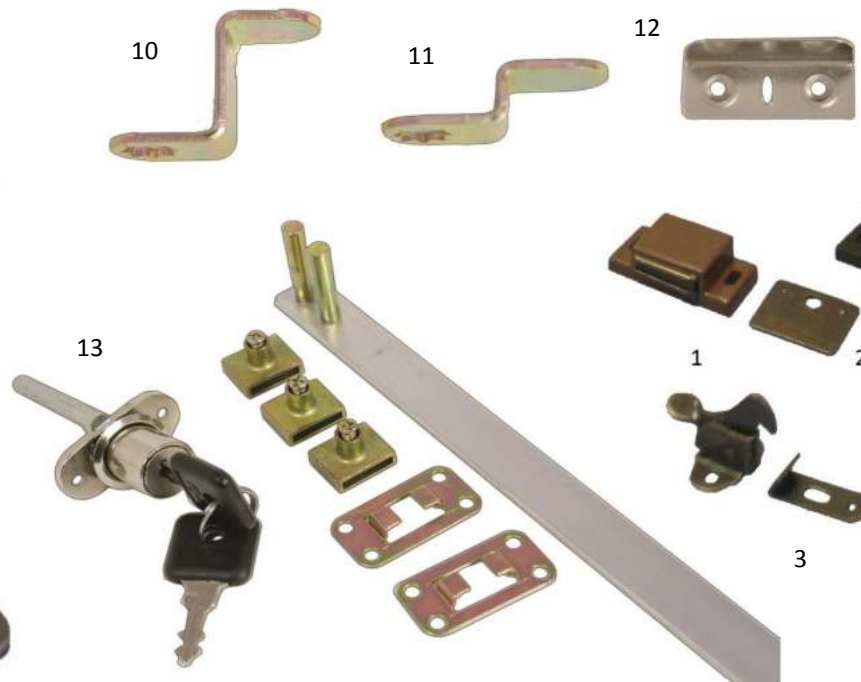

MINI LOCK

The MINI lock can be used at cabinet doors or drawers. The lock is not visible from the outside, installed on the inside of the piece of furniture and is locked with the help of the Latch MINI.

Impact Driver Bit

- High-grade S2 steel.
- Built for maximum performance and durability with impact drivers.

- Precision CNC head provides broad contact surface to the screws, reduce head damage at high torque fastening operations.
- Torsion zone absorbs impact force and high torque output.
- Laser marking for easy identification of bit size.
- Black phosphate coating resists corrosion and increases bit life.

Panama Canal Section

The Panama Siphon is named after the Panama Canal, which connects the Caribbean Sea with the Pacific Ocean. The Panama Canal is very important, as it shortens the distance required saving the trip around South America. With the Panama Siphon there is no need for a detour, the water flows directly from the sink to the sewer.

FLEXIFOAM POLYURETHANE EXTREME FLEXIBLE FOAM INSULATION

Ideal where a foam with extreme elasticity is needed

- Minimal Expansion Foam
- Very High Elastic Recovery
- Extreme Weather Formulation
- Gunable in All Seasons (-25°C to 49°C with a Can Temperature of 4°C to 35°C)
- 2 Year Shelf Life
- Storage in All Positions
- Excellent Thermal and Acoustical Insulation
- Closed Cell Foam: Airtight and Weather-tight Seal
- Installs 5x Faster Than Fiberglass
- Has an R-value per Inch of R-6.5 Compared to R-3.14 for Traditional Fiberglass
- No Shrinkage

AEROSOL CAN 750ML

SOUDAFOAM DOOR & WINDOW POLYURETHANE FOAM INSULATION

Ideal for eliminating thermal bridges between window frame and construction

- Minimal Expansion Foam
- Professional Gun Grade
- Excellent Thermal and Acoustic Insulation Properties
- Closed Cell Foam: Airtight and Weather-tight Seal
- Installs 5x Faster Than Fiberglass
- Has an R-value per Inch of R-6.5 Compared to R-3.14 for Traditional Fiberglass
- AAMA Certified

AEROSOL CAN 750ML (GUN),
GENIUS GUN 600ML (GENIUS GUN).

SOUDAFOAM ALL SEASON POLYURETHANE EXTREME WEATHER FOAM

Top of the line, minimal expansion foam for use in extreme climates

- Minimal Expansion Foam
- Extreme Weather Formulation
- High Yield
- Gunable in All Seasons (-25°C to 49°C With a Can Temperature of 4°C to 35°C)
- Excellent Thermal and Acoustical Insulation
- Closed Cell Foam: Airtight and Weather-tight Seal

SILIRUB 2 ONE PART, NEUTRAL CURE SILICONE SEALANT

Ideal for window glazing as well as window and door installations

- Excellent Adherence to PVC-Vinyl, Glass, Metals and Wood
- Permanent Flexibility and Excellent Recovery: +/- 25% movement
- Excellent UV Resistance, Color Stability and Weatherability
- Colors: White, Clear (for others colors, please contact your sale rep)
- Low Odor / VOC Compliant: Low VOC <3%

300ML CARTRIDGE

SOUDASEAL AP ALL PURPOSE SMX®-POLYMER HYBRID SEALANT & ADHESIVE

Ideal for sealing of windows & doors, both interior and exterior
Next Generation Sealant:

- Features Superior Performance Characteristics
- Superior Weather Resistance: Waterproof. Can be Applied to Damp Surfaces
- Paintable (Water Base Paint). Prior Testing Required
- Colors: White, Off White, Tan, Stone, Limestone, Aluminum Gray, Gray, Medium Bronze, Special
- Bronze, Black, Redwood, Hunter Green
- Permanent Flexibility and Elasticity: +/- 35% Movement
- Excellent Adherence to Porous and Non Porous Substrates: PVC-Vinyl, Wood, Glass, Metal, Concrete, Stone and Flashing Tape. No Need for Primers
- No Shrink, No Smell, No Bubbling, Easy to Tool and Finish
- Environmentally Friendly: No Isocyanates/No Solvents
- Low Temperature Workability. Will Not Freeze and Easy to Extrude
- VOC Compliant: Low VOC Level: <3% VOC
- Plastic Cartridge
- AAMA Certified

PLAN & ELEVATIONS

The CabMaster Designer Software range includes the ability to create Plan and Elevation Views.

This means that you can create multiple elevations per drawing and even per cabinet.

These elevations can also be enlarged to show more precise detail.

PERSONALIZED TEMPLATES

Using CabMaster Software Designer products, you can create multiple personalized templates to suit your specific needs.

You can customize everything from simply your page size and company logo, to runner types and materials required.

Your template details can also include job number, customer details and a sign off section.

3D RENDER

A simple 3D rendered view is included in CabMaster Designer Software.

In addition, an Advanced "Photoview" option is also available.

With Photoview you can create high quality 3D renders, therefore giving you an edge in design visualization.

A BRIEF SNIPPET

Canmade is a North American leader in the supply of specialty hardware. We hold our relationships with our suppliers and customers in high esteem which is why we have more than 40 years of experience under our belt.

We started out small, but over the years we have been importing and distributing functional and decorative hardware for the kitchen, bath, office and ready-to-assemble furniture industries. Our inventory currently boasts over 35,000 products including: adhesives, handles and knobs, lighting, slides and hinges, decorative surfaces, and organisation solutions. We are also conveniently located in Toronto, Montréal and will be growing across Canada and the United States.

Essentially, we strive to be the wholesaler you can rely on for all your furniture hardware needs with ease across North America.
